OTA API Authentication

When you sign up, you will be given a username and password which must be sent with each request. Each request will contain a POS field with the partner information included. See below.

```
<POS>  
  < Source>  
    < RequestorID Username="USERNAME" Password="PASSWORD"/>  
  <Source>  
</POS>
```

All messages are sent through SOAP to the endpoints. The WSDL file can be found here: <https://api2.speedybooker.com/Service.svc?wsdl>
